***PUBLIC NOTICE
SCHEDULING OF PUBLIC HEARING***

The SCDHEC – Office of Ocean and Coastal Resource Management will hold a public hearing for review and comment on proposed revisions to the position of the baseline and setback line, OCRM's beachfront jurisdictional lines, for Seabrook Island in Charleston County. OCRM is mandated by the Beachfront Management Act to revise all baselines and setback lines statewide every 8 to 10 years. The 2-year window for line revisions on Seabrook Island falls between April 2007 and April 2009.

Maps showing the current lines and the revised lines for Seabrook Island will be available for review starting at 3 PM on Tuesday, August 19, 2008, at the Seabrook Island Town Hall located at 2001 Seabrook Island Rd. on Seabrook Island. A public hearing concerning the proposed line revisions will begin at 6 PM that same day at that same location. During the hearing, oral and written statements will be received from the public concerning the new line positions.

All interested persons are urged to attend and voice their comments. Oral statements will be heard at the meeting, but for the sake of accuracy, important facts and statements should be submitted in written form to the presiding officer at the meeting or mailed to the OCRM office at 1362 McMillan Ave., Suite 400, Charleston, SC, 29405. OCRM will hold the written comment period on the line revisions open for 30 days following the public hearing, until September 18, 2008. On September 19, 2008, the revised lines will replace the current lines for all of Seabrook Island except for any areas where substantiating evidence has been submitted during the public comment period that suggests the revised lines may be incorrect.

SPECIAL NOTES

***DMPs** Dock Master Plans - OCRM is reviewing the listed DMPs for planning purposes only. Permitting decisions will occur when future dock applications are processed by OCRM for individual property owners. This document is used as a planning tool it is not subject to the appeal. OCRM welcomes comments from the public on these planning documents.

****WMPs** Wetland Master Plans – OCRM is reviewing the listed WMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM, which include impacts to freshwater wetlands. This document is used as a planning tool; it is not subject to appeal. OCRM welcomes comments from the public on these planning documents.

*****SWMPs** Stormwater Master Plans – OCRM is reviewing the listed SWMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM. OCRM welcomes comments from the public on these planning documents.

******PERs** Preliminary Engineering Reports – OCRM is reviewing the lists PERs for the purpose of commenting to other sections of DHEC concerning this document. OCRM will not be issuing a coastal zone consistency certification at this time but providing comments. If this proposal moves forward to the permitting process, OCRM would at that time do a full coastal zone consistency review.

PERMIT APPLICATION PUBLIC NOTICE**

August 1, 2008

Permit Number: OCRM-08-175-B
Permit ID: 64018

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Gayle Galloway
C/O Carolina Custom Docks
2266 United Dr
Huger, SC 29450

LOCATION: On and adjacent to Beresford Creek at 443 Royal Assemnly Dr, Beresford Hall in the City of Charleston, Berkeley County, South Carolina. TMS#: 268-13-01-078.

WORK: The work as proposed and shown on the attached plans consists of constructing a dock. The applicant seeks to build a 4' x 350' walkway, with handrails, leading to a covered 20' x 20' pierhead. Floodside of the pierhead, a ramp will access a 10' x 20' floating dock. Ebbside of the pierhead, a 14' x 20' four-pile boatlift is proposed. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

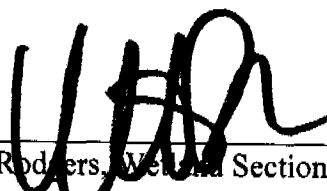

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before August 16, 2008. For further information please contact the project manager for this activity, Steve Brooks at 843-953-0235.

LOCATION: On and adjacent to Folly Creek at Scudder Lane, James Island, Charleston County, South Carolina. TMS#: 431-00-00-267.

WORK: The work as proposed consists of piping and filling an existing drainage ditch. Specifically, the applicant proposes to fill the existing channel and pipe the drainage through 604' of 18" RCP. Approximately 350' of the proposed pipe would fill 0.04 acres of critical area. The applicant does not propose any mitigation for this activity. The work as described is for access to the adjacent properties.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

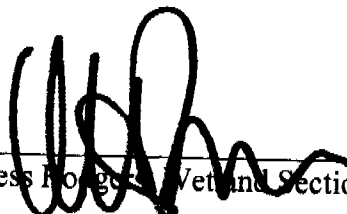

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before August 31, 2008. For further information please contact the project manager for this activity, Josh Young at 843-953-0257.

PERMIT APPLICATION PUBLIC NOTICE**

August 1, 2008

Permit Number: OCRM-08-538-S
Permit ID: 63856

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Ross Taylor
532 Furnwood Rd
Murrells Inlet SC 29576

LOCATION: On and adjacent to Rum Gully Creek at 532 Fernwood Rd, Murrells Inlet, Horry County, South Carolina.
TMS#: 197-17-08-080.

WORK: The work, as proposed and shown on the attached plans consists of reconstructing all existing structures, on lots 80 and 81, and adding a boatlift. Specifically the applicant seeks to replace the existing wooden wall with a new 236' long vinyl bulkhead. The applicant also seeks to rebuild on lot 80 the existing 14' x 24' fixed pierhead, 3' x 16' ramp and 6' x 16' floating dock with a 6' x 48' finger. In addition, the applicant also proposes to replace on lot 81 the existing 10' x 20' floating dock, 12' x 14' covered fixed pierhead and 3' x 16' ramp leading to 10' x 16' floating dock. A new 12.5' x 14.2' boatlift is also proposed. The purpose of the proposed activity is erosion control and the applicant's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before August 16, 2008. For further information please contact the project manager for this activity, Christopher Stout at 843-238-4528.

PERMIT APPLICATION PUBLIC NOTICE**

August 1, 2008

Permit Number: OCRM-08-899-L
Permit ID: 64096

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Melissa Brown
C/o Atlantic Marine Construction Co Inc
372 County Shed Road
Beaufort SC 29906

LOCATION: On and adjacent to Braddock Cove at 27 Wren Drive, Hilton Head Island, Beaufort County, South Carolina.
TMS#: R550-019-000-0303-0000.

WORK: The work as proposed and shown on the attached plans consists of making additions to an existing private dock. Specifically, the applicant proposes to construct a 4'x58' walkway extension channelward of the existing 4'x39' walkway. The applicant also proposes to relocate the existing 3'x24' ramp toward the floodside from the end of the proposed walkway extension and replace the existing 10'x12' floating dock with a 10'x20' floating dock channelward of the proposed ramp relocation. The purpose of the activity is for the applicant's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before August 16, 2008. For further information please contact the project manager for this activity, Kathleen Lamaker at (843) 846-9400.

Charleston, South Carolina 29403-5107.**

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact 0.04 acres of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

Pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended), the District Engineer has consulted the most recently available information and has determined that the project is not likely to adversely affect any Federally endangered, threatened, or proposed species or result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request for written concurrence from the U.S. Fish and Wildlife Service and/or the National Marine Fisheries Service on this determination.

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

REGULATORY DIVISION

Refer to: P/N #SAC 2008-1081-1IW

1 AUGUST 2008

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact Debbie King at 843-329-8044 or toll free at 1-866-329-8187.

at a location adjacent to Lot 5 on an island located at the end of Edibeth Road in the Town of Meggett, Charleston County, South Carolina (Latitude 32.72038, Longitude -80.20623)

In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, TUESDAY, 2 SEPTEMBER 2008

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of the construction of a private dock that consists of a 4' x 36' walkway with a 3' x 7' ramp leading to a 6' x 20' floating dock. According to the agent for the applicant, access to the island is pending. The purpose of the project is for the private recreational use of the future owner of Lot 5.

NOTE: Plans depicting the work described in this notice are available on our website at: www.sac.usace.army.mil or will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

**U.S. Army Corps of Engineers
ATTN: REGULATORY DIVISION
69A Hagood Avenue
Charleston, South Carolina 29403-5107.**

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact 0.006 acres of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

Pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended), the District Engineer has consulted the most recently available information and has determined that the project is not likely to adversely affect any Federally endangered, threatened, or proposed species or result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request for written concurrence from the U.S. Fish and Wildlife Service and/or the National Marine Fisheries Service on this determination.

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

1 AUGUST 2008

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact Debbie King at 843-329-8044 or toll free at 1-866-329-8187.
